We are seeking a dedicated Research Assistant to join our team on an innovative project aimed at understanding the gender gap in financial literacy. This project examines the disparity observed in financial literacy levels between genders, focusing on the roles of knowledge and confidence.

Key responsibilities:

- Assist in comprehensive literature reviews to support the project's foundation.
- Contribute to the design and refinement of innovative survey tools aimed at measuring financial literacy without the influence of confidence levels.
- Engage in preliminary data analysis and contribute to the interpretation of results.

Ideal candidate:

- A strong academic background in Economics.
- Keen interest in experimental and applied research methods.
- Excellent organizational skills, attention to detail, and ability to work independently.
- Proficiency in Stata.

This position offers the opportunity to contribute to significant empirical and methodological advancements in understanding the gender gap in financial literacy. You will be part of a dynamic research team and engage in a project with potential real-world implications for financial education and policy.

Start date: asap

Length of employment: 9-12 months (full or part time)

Pay Grade: Grade 5, sp 1 (pay rate: £15.52 per hour)

To apply, please submit your CV and 2 references to Professor Christopher Rauh, cr542@cam.ac.uk

Deadline of Applications: 8th April 2024
